

UNITED STATES  
CIVILIAN BOARD OF CONTRACT APPEALS

---

May 13, 2019

CBCA 6456-RELO

In the Matter of GREGORY BILLINGS

Gregory Billings, APO Area Europe, Claimant.

Major Jonathan E. Plotkin, Officer in Charge, Directorate of Resource Management, Area Support Group Qatar, Department of the Army, APO Area Europe, appearing for Department of the Army.

**SHERIDAN**, Board Judge.

Claimant requested that the Board review a claim for reimbursement of travel and relocation expenses in connection with relocation to a new permanent duty station.

Claimant subsequently asked that the Board dismiss the above-docketed matter because he now understands that the agency has neither denied nor allowed his request for reimbursement. Claimant posits that “there has been no ‘adjudication’ by the activity for the Board to review.”

Claims filed with the Board that have not been adjudicated by the agency are typically dismissed as premature under Rule 401 (48 CFR 6104.401 (2015)); *Michael P. Strand*, CBCA 5776-TRAV, 18-1 BCA ¶ 36,993. This case has been filed prematurely and at this point there is nothing for us to review.

Consequently, we dismiss this case.
