NOTICE

On September 27, 2010, the Board denied appellant's motion for summary relief and respondent's motion for partial summary relief. Because the Board's decision contains information considered by the parties to be procurement sensitive or proprietary, the Board initially issued its decision subject in its entirety to a protective order. The parties were advised to inform the Board of any redactions they consider appropriate by close of business **Thursday, October 7, 2010**. The Board will decide at that time what portions of the decision will be made public.
